Vicki shared with the group “Lego Social Group” that she is currently working on setting up for the students at ALG. She has asked if Parent Council could purchase some Lego sets of different difficulty levels. This will be voted on and talked about at the association meeting.

LAT (Learning Assistant Team) – Deanne Good / Carla Muir: New approach – LAT will go into the classroom and the teacher will work with the ones that need more support with Math. The students have many different types of manipulatives to help learn and a more hands on approach is being adopted, instead of using computers. The LAT team is asking Parent Council for Ten Frame Towers set (manipulatives for math). This will be discussed and voted on in the Association meeting.
